Vincent Medical Holds Kick-off Ceremony for 25th Anniversary Celebrations

(Hong Kong, 23 May 2022) – Vincent Medical Holdings Limited (“Vincent Medical” or the “Company”, together with its subsidiaries, the “Group”, stock code: 1612), a global supplier of respiratory medical device and disposables, is turning 25 this year. An online ceremony was broadcasted live today to mark the launch of the 25th anniversary celebrations and to celebrate this milestone with the Group’s associates in Hong Kong, Mainland China, Japan, the US and Europe.

Over the course of a quarter-century, Vincent Medical has transformed from a humble medical disposables manufacturer to one of the leading providers of respiratory care solutions. The Group has progressively expanded the scope of its product offerings and became a trusted partner of some of the world’s leading medical and healthcare technology companies. In recent years, Vincent Medical took on challenges in emerging fields such as ventilator humidification control, high-flow nasal cannula therapy and post-stroke EMG biofeedback rehabilitation. Medical technology has continued to advance in the last few decades, and Vincent Medical continues to support the process by providing technological excellence and high-quality products and solutions.

At the ceremony, Mr. Choi Man Shing, Chairman of Vincent Medical, expressed heartfelt gratitude for the support from customers, business partners and colleagues, which has led Vincent Medical to achieve a phenomenal success over the past 25 years. Mr. Choi also announced the launch of a group-wide slogan, “*Stronger Together*”, encompassing the Group’s belief that collective efforts across all stakeholders will lead to a bright future.

Looking back over the past 25 years of development, Mr. Otto To, CEO of Vincent Medical, said, “It was hard to believe that we started the Company with a handful of people, and grew so much to arrive at where we are today. I am most proud of how we have continued to stay true to our core value of ‘Patient First’, and contribute to the society through quality healthcare, especially during the 2003 SARS outbreak and the recent COVID-19 pandemic.”

Mr. Raymond Choi, Deputy CEO of the Group, also commented, “Our mature mechanism guarantees sustainable competences and competitiveness. Still, we are going to formulate the inspiration that will drive Vincent Medical to the next level of multidimensional growths and endeavor to be recognized as a dominant player in respiratory care and beyond. Let us continue to pursue products and services that will contribute positively to the society and another 25 years of growth!”

– END –
